

*Principal's Corner - Christopher Shivers
Carl T. Mitnick Elementary School*

Well the 2018 - 2019 school year has begun. Students have adjusted nicely to the start of the year as they continue to become acquainted to their teachers and new classmates.

This year brings several new changes to Mitnick School. We are happy to welcome some new staff members to our building. Some have come to us from other buildings, while others are new to the district. In addition to our 1st and 2nd grade students we now welcome three new additional PreSchool classes. Over the summer our building also received all new LED lights as well as energy efficient thermostats.

Mitnick School takes great pride in establishing a positive, nurturing environment where students are motivated to become lifelong learners. As a Bucket Filling School we encourage our students to be kind, compassionate citizens. Various incentive programs throughout the year allow us to celebrate the accomplishments of our students.

As we focus on student achievement, we will provide many different opportunities for parents to take part in their child's education. Various school functions such as parent/teacher conferences, school performances, curriculum nights, and writing celebrations will be held this year. Many of these events provide a glimpse into our educational programs, while also giving you the opportunity to spend valuable time with your child. We are hopeful that you will join us in as many of these events as possible as your support and commitment to your child's education is invaluable.

Our faculty and staff are looking forward to another successful school year. Please do not hesitate to contact me with any questions.

*Sincerely,
Christopher Shivers
