

2240 CONTROVERSIAL ISSUES

Free discussion of controversial issues -- political, economic, social -- shall be encouraged in the classroom whenever appropriate for the level of the group.

Issues may be considered controversial which arouse strong reactions, based either on personal conviction or allegiance to a group. School treatment of controversial issues shall be designed to instruct pupils in fair and objective study techniques. The decision on whether a particular controversial issue shall become a matter for school study shall be based on the timeliness of the question, the maturity and needs of the pupils and the purposes of the schools. Classroom discussions on controversial questions which arise unexpectedly shall be the responsibility of the teacher, who shall provide relevant information on both sides of the question. Such discussions shall be kept free from the assumption that there is one correct answer which should emerge from a discussion and be taught authoritatively to the pupils.

Pupils shall be taught to recognize each other's right to form an opinion on controversial issues, and shall be assured of their own right to do so without jeopardizing their relationship with the teacher or the school.

The Building Principal shall have the authority to limit or suspend discussion of controversial issues pending a review of the issue/materials. Instructional materials not previously approved must be reviewed by the Principal before being introduced into the classroom.

2510 ADOPTION OF TEXTBOOKS

The Board of Education shall approve all textbooks used in the educational program of this district. "Textbook" means the principal source of instructional material for any given course of study, in whatever form the material may be presented, which is available or distributed to every pupil enrolled in the course of study.

The Superintendent shall be responsible for the selection and recommendation of textbooks for Board consideration, but the Board may approve textbooks not recommended by the Superintendent.

In considering the approval of any proposed textbooks, the Board will weigh its value as a learning tool; its suitability for the maturity level and educational accomplishment of the pupils who will be using the book; its freedom from bias; its relationship to a course of study adopted by the Board; its relationship to a continuous multigrade program; its impact on community standards of taste; the manner by which it was selected; and its cost, appearance, and durability.

The Superintendent shall develop regulations for the selection of textbooks that include effective consultation with professional staff members at all appropriate levels.

Textbooks currently in use shall be periodically evaluated for their continuing usefulness and relevance and shall be replaced or updated with new editions as often as necessary to meet the needs of pupils and the curriculum.
